

What is Fly2Work?

Air. Ground. Accommodation.

Whether a workforce needs to travel by air, bus, company vehicle or hire car, Fly2Work is the complete solution when it comes to the management, booking, accommodation and support for all FIFO workers and people that need to travel as an essential function of their job.

Fly2Work provides a unified platform where travellers can manage all of their flights, transport to sites and accommodation well into the future, while managers can easily monitor and access this data with no redundant or unnecessary human interaction required.

Developed in conjunction with industry leaders, the system operates lean and doesn't have complicated workflows to facilitate travel. Travellers can make a booking online through any internet-enabled device for air charter, bus charter, self-drive and site accommodation. Users can secure their bookings in less than three minutes end-to-end, and the site travel approval process is even quicker.

Key Features

- ✓ **Three minute booking process**
Add rosters and multiple bookings at once from any internet enabled smartphone, tablet, PC or Mac.
- ✓ **Fast implementation**
Fully customisable SaaS platform with simple profile, company and data set up process.
- ✓ **Data-rich reporting**
Dashboard live reporting and access to historic and future traveller and supplier data.
- ✓ **Easy staff training**
Train all user types including traveller, travel coordinator and approver in just 10 minutes.
- ✓ **One-step approvals**
View traveller booking requests and amend, finalise, wait-list or decline at the single click of a button.
- ✓ **Automated itineraries**
Itineraries and confirmations are sent to travellers and accommodation providers automatically upon approval.
- ✓ **Fully customisable**
Our team will work with you to create a personalised solution for your needs.
- ✓ **Manage multiple camps**
Manage your entire workforce across multiple sites, including commercial accommodation vendors.
- ✓ **COVID-19 health warnings**
Built-in health check is sent to all travelling workers 48 hours before they are set to depart.
- ✓ **Live, real-time insights**
View and manage live services and manifests in real-time recording and reporting.
- ✓ **Efficiency and control**
Centralised system allows for complete control over all aspects of site travel requirements.
- ✓ **'Always on' support**
The global Fly2Work support team is available to assist 24 hours a day, 7 days a week.

Installation

Fly2Work can be up and running with an easy onboarding process. The installation time investment varies and can be dependant on:

- ▶ Workforce and number of users
- ▶ Data setup, employee profiles, services (transport, accommodation, camp, canteen)
- ▶ Training for an existing site travel team (if required)
- ▶ Training for user groups such as company Administration, Traveller, Travel Approver, Travel Booker, Supplier.

Associated investment options

Fly2Work is reasonably priced with working models to meet your specific needs. Bespoke pricing is based on the number of users, custom-build training and support requirements.

Free trial

See how Fly2Work will benefit your company travel and journey accommodation solutions with a personalised, no-obligation trial.

We can have you set up in a snap, allowing you to test the software in real time, with your own branding and company data. Your trial will last 2 - 8 weeks, depending on your solution requirements.

Simply contact the Fly2Work team on +61 7 3063 2295 to get started.

How it works

- ▶ Supplier arrangements for transport and accommodation services are loaded and managed through a Company Administration portal.
- ▶ Users can search and book on any loaded service via any internet-enabled device. Fly2work is responsively designed so it will automatically resize depending on the device being used (i.e. PC or smartphone).
- ▶ Managing manifests between the client and the supplier are streamlined and in real-time.
- ▶ No more managing multiple excel spreadsheets where data is often out of date and there is a risk of human error.
- ▶ Suppliers are provided with a login for Fly2Work to view live manifests, allowing them to process online check-ins and record no shows/go shows directly via the system.
- ▶ Communication is paramount and Fly2Work has been designed with SMS, email and on-screen alert messaging features that allow the client or supplier to provide real-time alerts, reminders and notifications.
- ▶ Detailed reporting is available in a tailored 'quick-look' dashboard design or through built-in ad-hoc reporting functions. The system provides a complete solution for reporting whether this is historical or future travel data.
